

# ALCAR WHEEL COLLECTION

# 2026

YOUR PARTNER FOR ALLOY & STEEL WHEELS

**ALCAR**

YOUR WHEEL PARTNER

# AEZ TOKIO – 23-INCH DOMINANCE ON FOUR WHEELS

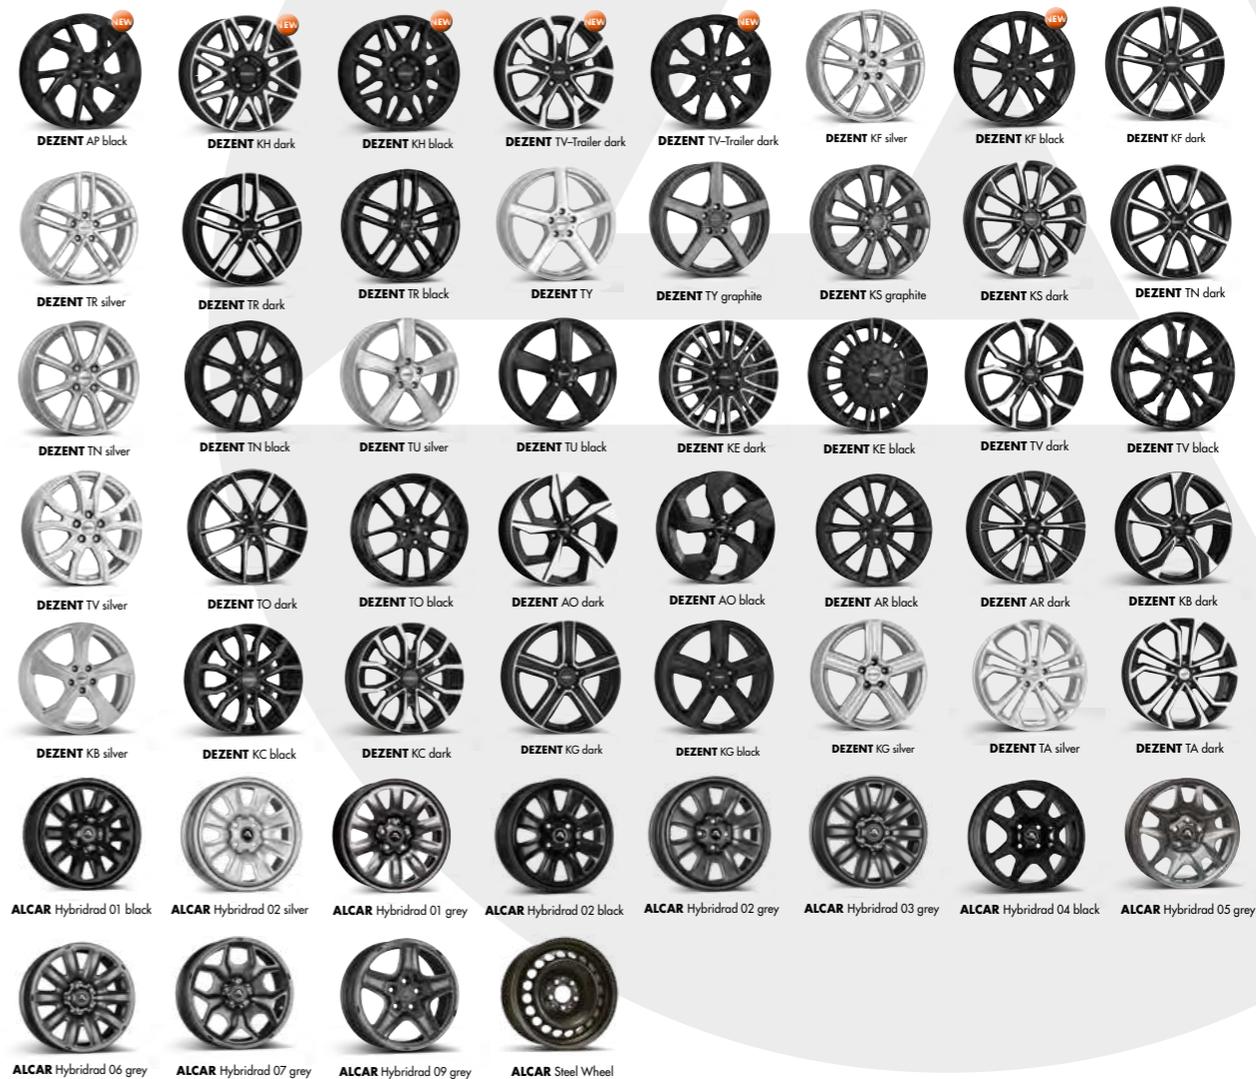

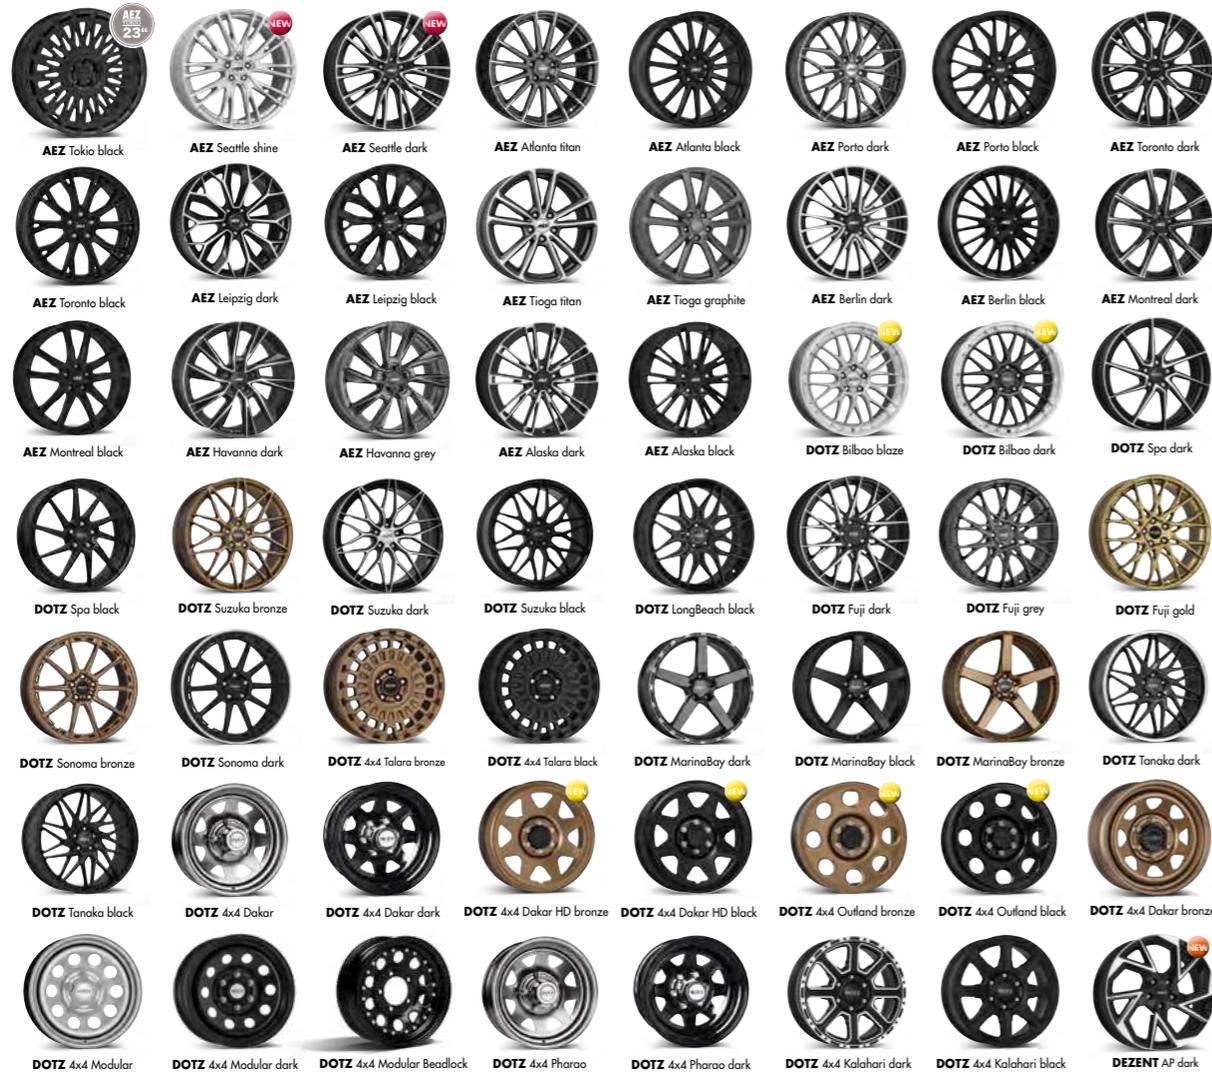

FLOW FORGED. ECE CERTIFICATION. BUILT FOR GIANTS

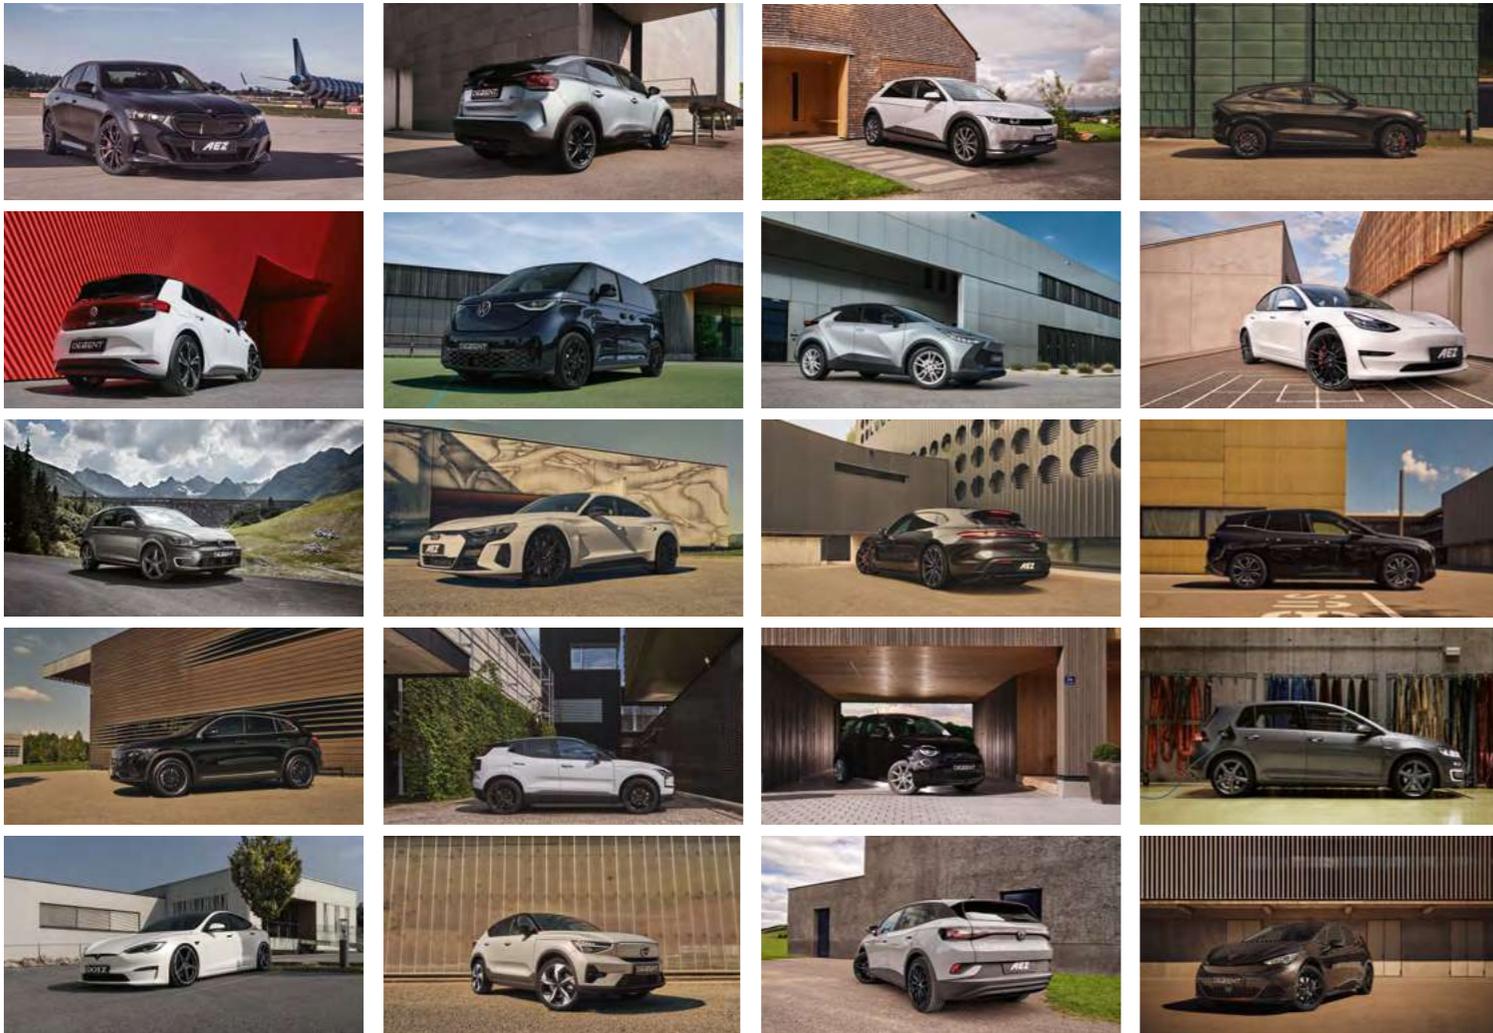

With 23 inches, the new **AEZ Tokio** sets new standards – technically unique, visually uncompromising. Aggressive cross spokes, a recessed centre area and a striking design in elegant, sporty black ensure maximum performance. Available in 9.5 and 10.5 x 23 inches – perfect for Audi RSQ8, Range Rover, G-Class & Co.

1085 kg wheel load. ECE certified. Plug&Play.

# ALCAR GOES e-mobility

STRONG TRADE PARTNER FOR E-MOBILITY WITH THE BRANDS **AEZ** AND **DEZENT**

**ALCAR** is offering a comprehensive selection of rims for Generation E vehicles to workshops, tyre dealers and car dealerships. Looking for the right rim is easy now, thanks to a completely redesigned e-mobility category and filter function on the **ALCAR**, **AEZ** and **DEZENT** brands' digital web presences.

- **ALCAR** offers a wide range of products for 99% of all BEV, HEV, PHEV vehicles
- Choose from 82 designs from 14" to 23" for small cars to large luxury SUVs
- The majority are ABE and ECE solutions and therefore free of approval
- High availability and fast shipment all across Europe

As a wheel manufacturer, **ALCAR** has been exploring the topic of e-vehicles for many years, having carried out numerous tests with concept designs in the past few years. From open five-spoke to strong Y-spoke designs – the devil's in the detail, every rim must match the respective car both technically and in terms of design. The challenge in the development is to find an optimum combination of all technical wheel requirements in the individual designs.

The **ALCAR** e-mobility logo shows you exactly which wheels fit e-cars.

# ALCAR SNOW SOCKS

QUICK TO MOUNT. SAFE TO DRIVE.

ALCAR SNOW SOCKS

ALCAR  
YOUR WHEEL PARTNER

# EASY KIT SPARE WHEEL

NEW

# SPAREWHEELS

READY FOR MOUNTING ON STEEL & ALUMINUM RIMS !

MORE THAN 200 ITEMS ON OFFER FROM  
ALCAR COMPATIBILITY WITH UP TO 2000  
VEHICLES!

The **EASY KIT** contains: Aluminum or steel Sparewheel, wrench, jack, practical carrying bag, gloves, wheel nuts (optional). Each **ALCAR** Sparewheel wheel is inflated to the maximum permissible pressure and can be fitted immediately.

## ALCAR 3D CONFIGURATOR

Users get a complete overview of the matching wheels, tyres, sensors and certificates. With the rim configurator from ALCAR everyone can try out countless combinations for their cars. From 14 to 23 inches, no wishes remain unfulfilled. Marvel at the mobile rim wardrobe with more than 1200 car models in highly realistic 3D display.

## ALCAR E-COMMERCE

At ALCAR, competence in sales also stands for excellent technical solutions for our customers. Using high-tech ALCAR IT-Services enables customers not only to achieve better sales but also to organise their internal company processes in a much more efficient way.

## ALCAR FITTED UNITS PORTAL

The online one-stop-shop solution where you can order "Everything for wheels". Wheels, tyres, sensors, parts – completely assembled and ready to mount. Simple. Fast. Inexpensive.

## ALCAR WEBSHOP

ALCAR partners can choose from electronic purchasing solutions via ALCAR WEBSHOPS or XML data transfer as well as online sales solutions – such as fitted unit solutions and wheel configuration tools for the competent consultation of customers and consumers.

## ALCAR LOGISTICS

The entire product range, high availability of our wheels, 24 to 72 hour delivery service within Europe as well as highest service quality and top-quality customer care by our individual distribution companies.

## ALCAR SRC PAINT. THE PERFECT PROTECTION.

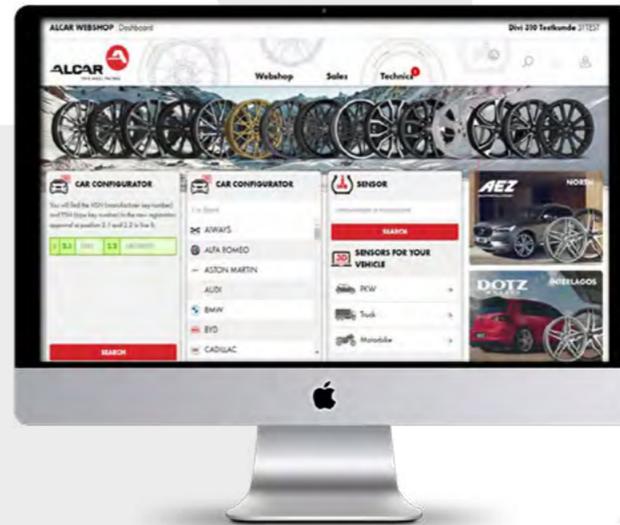

The high-quality and innovative SRC painting ensures that the wheels still look good even after years. The abbreviation stands for "salt & sun resistant" while the letter „C“ indicates the sealing coating.

## ALCAR SENSOR TIRE PRESSURE MONITORING SYSTEM (TPMS)

Since November 1st 2014, the EU tyre pressure monitoring system directive has applied to all newly registered cars. All ALCAR wheels are prepared to accommodate the necessary wireless sensors (direct TPMS) and relevant information has been implemented in ALCAR information systems and are constantly updated. Since mid-2020 ALCAR offers a new and significantly improved product generation of sensors as well as diagnosis and programming tools.

## ALCAR QUALITY

All wheels are regularly tested to ensure dimensional precision and material homogeneity during production. Additionally all wheels are checked for visible defects after production. All alloy wheels are examined by Germany's TÜV institute and certified to make sure that they are able to withstand highest levels of stress.

# THE WORLD OF ALCAR

**ALCAR** is an internationally active industrial and commercial group which places its strategic focus on steel and alloy wheels. The **ALCAR** Group is the market leader in the European passenger car wheels aftermarket sector. The group's main business activities focus on wholesaling on national and international level, manufacturing steel and alloy wheels as well as distributing tyre pressure monitoring systems and fitted units.

-  The rim model has ABE approval.
-  The rim model is ECE-approved, 100% identical to the original of the respective vehicle manufacturer.
-  The rim model is TÜV-tested and approved.
-  The rim model is specifically designed for SUV vehicles (high load capacity per wheel).
-  Certain OE wheel covers fit the rim model.
-  The rim model is suitable for year-round use, with a special coating to protect against all weather conditions.
-  Rim model suitable for electric and hybrid cars.
